Shri. Rajkumar Dhoot sharing the

vision on which Seth Nandlal Dhoot Hospital was established in 1998.

It was my father Shri. Seth Nandlal Dhoot's long cherished dream that there should be a multi-speciality hospital in Aurangabad. Before he passed away in 1993, people had to travel to bigger cities like Mumbai/Pune for treatment. Those days travel was not that easy, waiting period was 10 – 15 days, lower class people could not afford staying for longer durations in a different city, So it was my father's wish that there should be a charitable hospital in Aurangabad. Unfortunately, he is not with us today but with his blessings, we have developed this multi-speciality hospital in Aurangabad.

By God's will, and my father's blessings, every year we progressed, we got high quality devices, and highly skilled team of doctors joined the team and today, it is one of the leading hospital in region. Our aim is to provide quality healthcare to people are all strata of our society.
